## GRAND VIEW

THE "BEAUTY SPOT" OF STRATHCONA

Nowhere on either side of the river can such lots with their beautiful river views be bought for anywhere near their price. The nearest approach to it is the Groat Estate, where river view lots command ten times the price we are at present asking for Grand View Heights. Do you catch the idea? You will have to get busy now if you want to be sure to get in on the ground floor. Remember it only costs you \$25.00 to get started on a \$100.00 lot. Then you can sit still and watch your money grow.

# HAS UNWARPABLE SOLES

Improvement Number Eight

Nearly every shoe is built without regard to sole warping, on soles of red, rigid, lifeless, hemlock tan leather which curls up bowl shape at the first wearing and, like bent lead, stays put.\*

Until the invention of Foot-ries, warping soles were never given the slightest consideration. The Foot-rite makers have solved the sole warping problem, and this

seasoned leather almost as soft and supple as the live call's hide, which doesn't shrink and draw up the soles. The drying of water-soaked shoes causes shrinking and warping. As Foot-rites are almost waterproof, little water is soaked up.

And, being formed over foot sculptured lags. Foot.vite incides are precisely the same shape and size as the feet which inhabit them. This means that the foot bears down on every single, solitary square inch of insole space.

There's no vacant or waste floor space, and the great weight of the body, evenly and equally distributed over the tole, irons out all warping and holds the sole as flat

A Funt-rite dealer has the shoes in town. Run in or him and his shoe. You'll find a door swinging inward but never outward to a more welcome store.

Fitz-patrick objected to Burns' demand for \$30,000 to win, lose or draw. Neill stuck-out for this and Fitzpatrick finally call-ed off the deal.
